Media attention

39 published articles and news reports in Swedish media between June 2022 and September 2023. Examples:

- Framtidens mat odlas i Frihamnen

<https://www.gp.se/nyheter/g%C3%B6teborg/framtidens-mat-odlas-i-frihamnen-1.84730303>

- Marin kolonilott – framtidens odling invigdes i Frihamnen i Göteborg

<https://www.svt.se/nyheter/lokalt/vast/marin-kolonilott-framtidens-odling-invigdes-i-frihamnen-i-goteborg>

- Marin kolonilott ska sätta havsodling på kartan – mitt i Göteborg

<https://sverigesradio.se/artikel/marin-kolonilott-ska-satta-havsodling-pa-kartan-mitt-i-goteborg>

- Här odlas framtidens mat – under vatten

<https://sverigesradio.se/artikel/har-odlas-framtidens-mat-under-vatten>

- Marin kolonilott ska byggas i Frihamnen

<https://www.gp.se/nyheter/g%C3%B6teborg/marin-kolonilott-ska-byggas-i-frihamnen-1.73932978>

Additional funding granted for further research at Flytevi

- Vinnova framtidsprototyper- when the future comes to visit the present

<https://www.vinnova.se/en/m/emerging-innovations/future-prototypes/>

- COOL BLUE - TOWARDS LOCAL COMMUNITY-DRIVEN BUSINESS MODELS: REGENERATIVE OCEAN FARMING. 2023-2026. EU Horizon.

<https://coolblueproject.eu/>

- Frihamnens Marina Kolonilott – Framtidens mat från havet, 2023-2025. Formas Kommunikationsutlysning.

<https://formas.se/en/start-page/archive/calls/2023-09-06-communication-call-2023.html> (for the 2022 call)

Future projects planned at Flytevi

- Upcoming classes for school children 2023-2024: “Havsbonde/Havskock för en dag”
- Investigation started within the City of Gothenburg to evaluate the possibilities of starting more blue community gardens around Gothenburg.

Academic research

- Master's thesis by Sally Schadendorf: "Increasing Ocean Literacy: the effects of different educational activities on societal awareness, interest and attitude towards sustainable seafood consumption - a case study from Gothenburg, Sweden"
- Flytevi has been used as a case study for the Bachelor thesis: "Marina kolonilotter - en hållbarhetsnisch i ett sociotekniskt landskap"
- Gothenburg University is conducting applied research projects onsite, but not peer-reviewed papers have yet to be published as a result given the short time frame where research has been possible
