

# Hydroscape Lisbon

## Timeline

2024

### 1-2 months

Initiate dialogue with key stakeholders, including the city of Lisbon, planning committees, and urban planning bodies. Present the project and seek feedback.

### 3-4 months

Conduct workshops engaging locals, university students, and experts in urban planning and landscaping. Facilitate discussions about the barriers between the city and the river, garnering insights into community needs and aspirations.

### 3-4 months

Refine the project proposal based on stakeholder feedback and workshop outcomes. Find collaborators for development of ideas and planning of next steps. Collaboration with universities and experts.

-

Research and implementation of idea to different contexts, participation in decision making for our urban landscapes. contribution to European Bauhaus movement.
